PB SWISS TOOLS

Dear Readers

We benefit from the work done by people who have completed some form of vocational training. They are valuable employees that will one day develop to become specialists and managers.

Apprentices and trainees are the next generation of our enterprise and our society. Their vocational and further training are incorporated in our entrepreneurial tasks that we, as instructors and sponsors, have been investing in for decades.

In this way, we can lay the essential foundations for the successful development of both employers and employees. As demanding customers, you benefit from this approach as well in that you will find brand-name products in the PB Swiss Tools range of products that have been designed and made by qualified employees.

Best regards

Eva Jaisli

CEO, Chief Executive Officer

SWISS SKILLS – SPONSORING

AT THE HIGHEST LEVEL

Highly motivated, ideally qualified professionals from the trades, industry and services sectors recently came together in the Swiss capital to demonstrate their abilities in a national skills competition.

Many promising, high-quality skills were in evidence at this vocational training event. The individuals who were awarded the gold medal will be taking part in the World Skills competition in Kazan, Russia, next year. We were pleased to be able to support these young professionals with selected quality hand tools.

Work with the best.

YOUR
LOGO

IN JUST THREE STEPS

DESIGN YOUR PRODUCT ONLINE AND PLACE YOUR ORDER

«Tool4you» enables you to design the brand-name product of your choice as a gift or promotional item just the way you want it. In only three steps, design the tool and add your logo or slogan the way you want it to be:

- Create and check a number of options
- Add logo or text
- Templates are saved
- Overview of prices, terms and delivery timing
- From only 25 items

You have the opportunity to add a personal message to the gift packaging. The card can carry your greeting, logo and your personal signature. And is then placed in the gift packaging box.
